DEPARTMENT OF PUBLIC WORKS

300 East Main Street, Sun Prairie, WI 53590

(608) 837-3050

Fax: (608) 825-1194

www.cityofsunprairie.com

This guide provides information on: what can and cannot be thrown out in your refuse container, what can and cannot be thrown in your recycling container, recycling options for a wide variety of items that cannot be put in your recycling cart but do not need to end up in a landfill, organizations that may be able to reuse or resell your unwanted items.

Recycling and refuse options and information are constantly changing. Should the City of Sun Prairie's trash and recycling collection rules change, you will be notified. If you have a suggested revision to the Guide, please contact the City of Sun Prairie Public Works Department at publicworks@cityofsunprairie.com or 837-3050. Guides will be available on-line on the City's website www.cityofsunprairie.com. Click on the Public Works Department page.

This Guide should not be construed as a recommendation or endorsement of any organization or business by the City of Sun Prairie. Information on businesses and non-profit organizations that take items for resale or recycling may change at any time without notice.

The City of Sun Prairie wishes to acknowledge and thank the City of Madison Streets Department staff for developing the "Recyclopedia" which was used as a source document for this guide.

The Basics

Refuse and recycling collections are provided by the City of Sun Prairie's contractor, Advanced Disposal (251-7878).

Only residents living in the following types of dwellings receive City-sponsored refuse and recycling collections:

- Single-Family Home
- Duplex
- Four-Plex
- Condominium

Residents receiving City-sponsored collections are also allowed to use the City of Sun Prairie Recycle Center. You will need to apply for the free permit either online (www.cityofsunprairie.com/public-works) or in person (300 E. Main Street, 2nd floor). **See page 11 for address, hours and more information on the Recycle Center.**

Residents receiving City-sponsored collections are also provided with either 65 gallon or 95 gallon disposal receptacles.

If you live in a multi-family dwelling or own commercial property, you are unable to use the Recycle Center or participate in the curbside collection dates. You cannot use the Recycle Center because these types of properties do not pay the special tax charge to do so, whereas the above mentioned properties do pay for its use.

Multi-family and commercial properties are responsible for providing their own refuse and recycling collection services and disposal containers. All questions for collections on these properties should be directed to either the Property Manager or the Property Owner. The City does not handle these collections.

Cart Placement

REFUSE & RECYCLE CART SET-OUT RULES

- Carts should be placed curbside or at the end of your driveway, NOT in the street. Keeping your carts off the roadway will ensure that plow drivers can clear snow to the curb. If carts are placed in the street, the plow driver will have to drive around them and leave the snow in the roadway. Carts in the street will also affect street sweeping, mail delivery, parking and drainage.
- Allow 4 feet of space between carts and on each side of your carts. Allow 10 feet of space between carts and parked cars.
- Do not place dirt, rocks, yard waste or brush in your carts.
- All of your material must fit in your cart with the lid closed.
- Bag extra material that will not fit into your cart and purchase stickers to affix to the bags. Stickers can be bought (5 for \$15) at City Hall (2nd floor), Copp's or Sentry. Set stickered bags beside carts; they will not be collected without them.
- Collection and payments for bulk/large items (couches, mattresses, carpet, etc.) must be arranged with Veolia. Please call 251-7878 to schedule a collection. Collections are made the second and fourth Mondays of every month.

Public Works Department
837-3050

Refuse

Your cart with the TAN lid is for **refuse/garbage**. These carts are collected every week, be sure to have it out curbside by 7:00 a.m. on your collection day. Items must fit in your cart with the lid completely closed. If you have large items to be picked up see bulk collection on page 19. If you have extra bags you would like picked up, you will need to purchase stickers from Copps Food Center or Public Works Dept (201 S. Bristol St). Each bag needs to have a sticker on it in order for it to be picked up. Stickers are 5 for \$15+tax.

Recycling

Your cart with the **GREEN** lid is for **recyclables**. Recycling Collection occurs every other week. See map on page 6 to determine your collection week.

All recycle items can be co-mingled; they do not need to be separated by items.

The Sun Prairie recycling program accepts the following materials for collection in your green cart:

Paper Products

- Books - Soft-covered
(Comic books, phone books, puzzle books, catalogs, etc.)
- Boxes
(Cereal, cracker, soda, tissue, gift, packing, etc.)
- Paper (Office, computer, writing, shredded, bags, etc.)
- Corrugated Cardboard
- Junk Mail, including envelopes
- Magazines
- Newspapers (Including inserts)

Containers

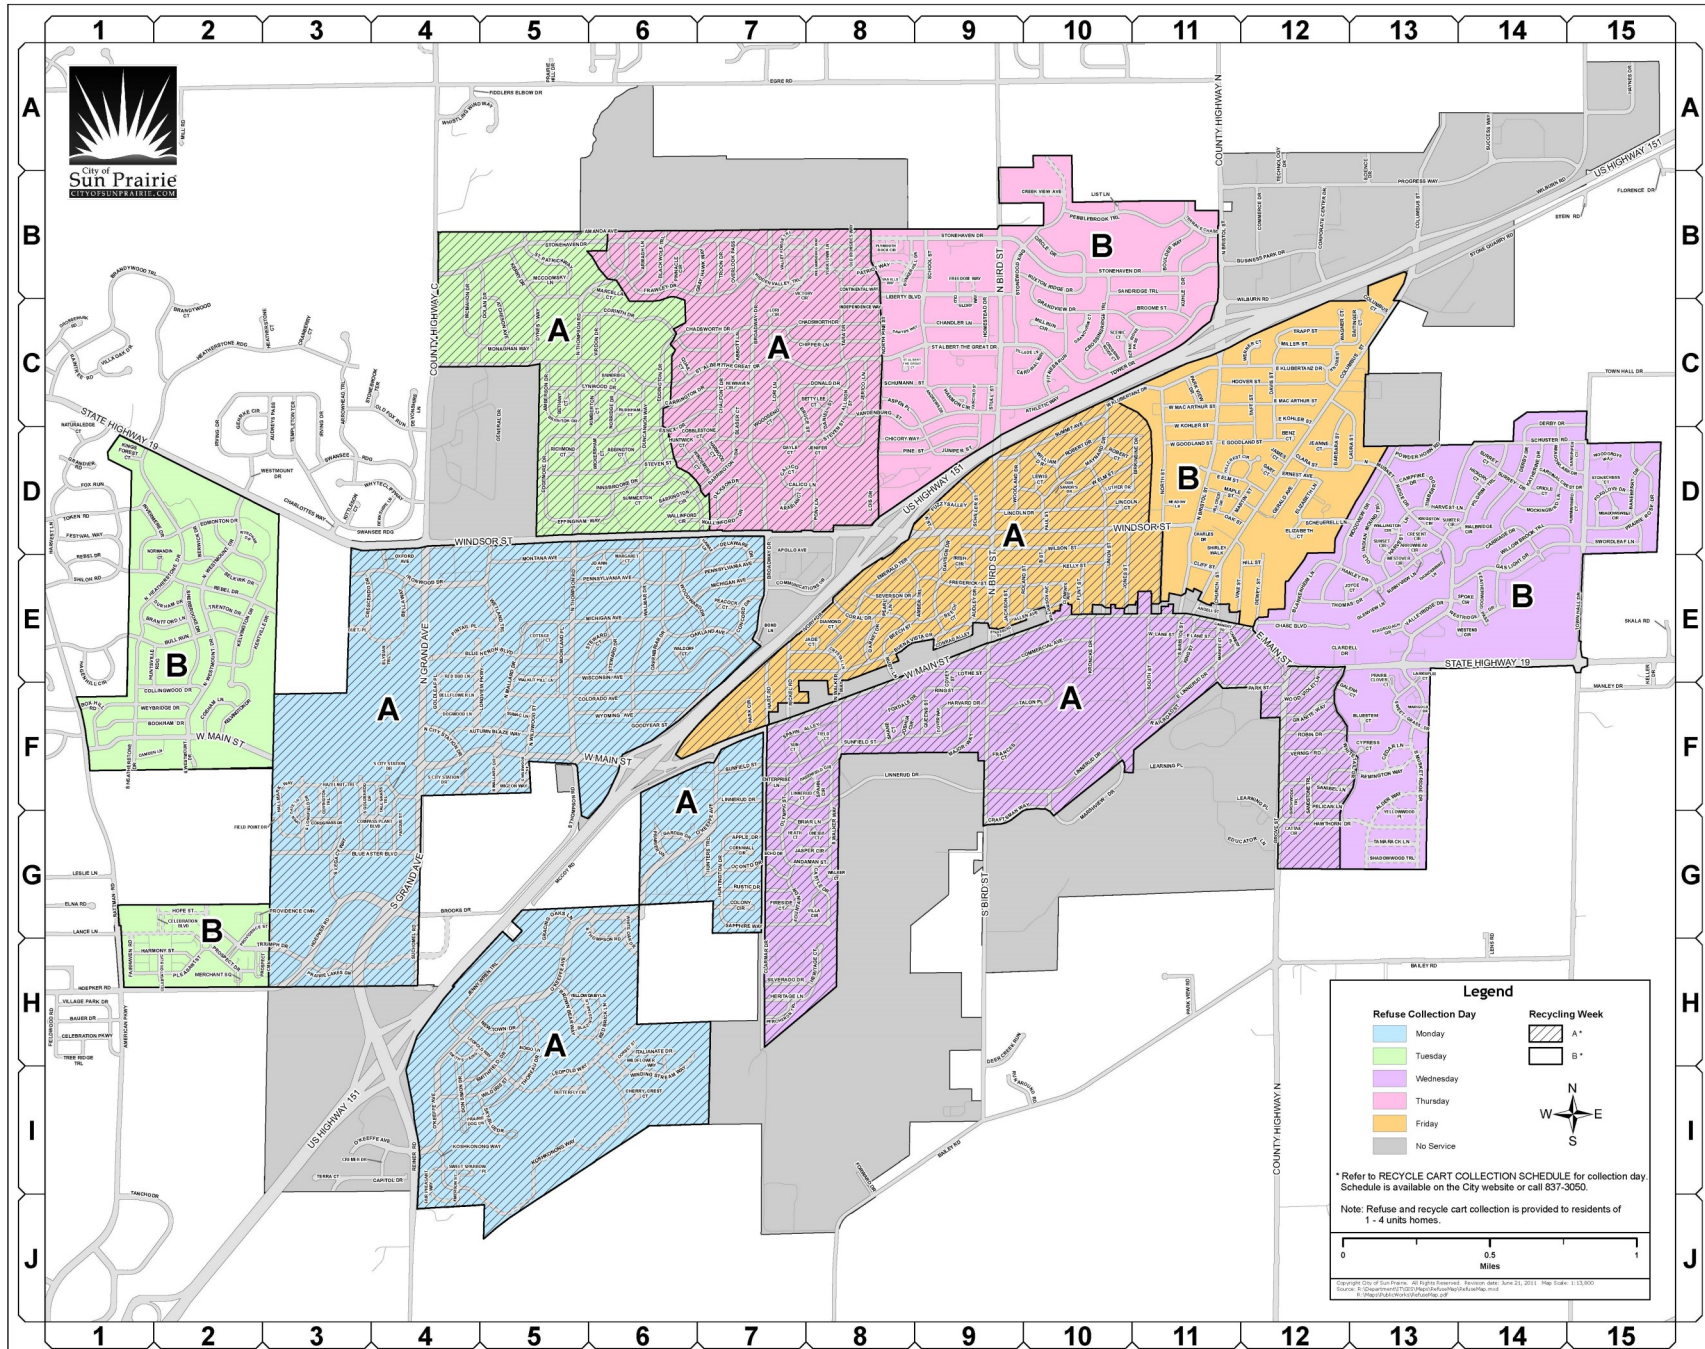

- Aluminum Cans (NO FOIL)
- Glass (NO WINDOWS)
- Metal Lids
- Milk & Juice
- Plastics - #1 through #7 (Except motor oil)
- Steel / Tin
(including EMPTY aerosol cans and EMPTY paint cans)

Styrofoam can go in your recycle cart but no 'take-home' containers.

PIZZA BOXES? You can recycle the top if it does not have grease or food on it. The bottom should be placed in garbage.

If you have extra bagged material, you can purchase a sheet of 5 stickers for \$15.00 + tax. You may purchase those at Public Works Dept, 201 S. Bristol St, during normal business hours M - F 7:00 a.m. to 3:30 p.m. (Closed on weekends and holidays).

Residential Refuse & Recycling Map

Recycle Schedule

Recycle carts are picked up every other week while refuse carts are picked up each week. Use the following schedule along with the map on page 8 to determine when you recycle collection is. Click on schedule to view online.

*Week contains a Holiday

Collection changes due to holidays

The following holidays affect the refuse and recycling collection schedule:

Memorial Day. No collection on this Monday, all collections will be delayed by one day all week. Mondays collections will occur on Tuesday, Tuesday on Wednesday, etc.

Independence Day. No collection on this day. All collections for this day and through the end of the week will be delayed by one day.

Labor Day. No collection on this Monday, all collections will be delayed by one day all week. Mondays collections will occur on Tuesday, Tuesday on Wednesday, etc.

Thanksgiving Day. No collection on this Thursday. Thursday collection will occur on Friday, Fridays on Saturday.

Christmas Day. No collection on this day. All collections for this day and through the end of the week will be delayed by one day.

New Year's Day. No collection on this day. All collections for this day and through the end of the week will be delayed by one day.

The following holidays should not affect the refuse and recycle collection schedule:

Martin Luther King, Jr. Day

Spring Holiday (Good Friday)

Columbus Day

Veteran's Day

The Recycling Center (Drop-off site)

The Recycle Center is located at 1798 South Bird Street and is open to all City of Sun Prairie residents that live in single family or 1-4 unit dwellings that pay the special city recycle center tax. Residents wishing to use The Recycle Center must have a permit, which can easily be obtained by stopping at City Hall during business hours and filling out the application or by completing the application online at www.cityofsunprairie.com under the Public Works page.

NO COMMERCIAL DUMPING	

Yard Waste Curbside Collections

Yard waste is categorized as leafy vegetation that composts in a short period of time. This includes: grass, leaves, garden waste, shrub trimmings, and twigs smaller than pencils.

Yard waste materials placed at the curb for collection on the scheduled weeks must be placed in OPEN trash bags, garbage cans (no lids), or storage containers (no lids). [See website.](#)

They must be placed at the curb by 7 a.m. on Monday of the designated collection week to be picked up during that week.

Yard waste can also be disposed of at the Recycle Center with a permit (see page 8).

Whether materials are placed curb side or taken to the Recycle Center, please do not mix in brush or garbage.

Grasscycling

If you practice grasscycling you leave your grass clippings on the lawn after mowing to decompose. Grass clippings are mostly water. When you mow regularly, clippings quickly decompose and release nutrients to fertilize the lawn. Research shows that when grass clippings are left on the lawn, one-third less fertilizer is needed to achieve the same color and grass density found on lawns where the clippings are removed. This also means less needs to be hauled for composting.

Brush Collections

Brush consists of sticks and branches.

They are collected curbside approximately once a month from April through November. These collections are scheduled for brush that is generated by City residents who receive City-sponsored refuse/recycle collections. Once an area has been collected the crew will not return to the area until the next scheduled collection-be sure to have your brush out curbside by 7 a.m. on Monday.

[See schedule on website.](#)

- ▶▶ Brush must be stacked neatly at the curb, piled no more than four feet high, with cut ends facing the curb.
- ▶▶ Leave branches in long segments, as long as one person can handle. Do NOT cut into small segments.
- ▶▶ Brush should NOT be piled in a manner that affects motorist visibility and should also be kept away from trees, signs, parked cars, mailboxes, fire hydrants, and utility poles.
- ▶▶ Do NOT put brush in bags, boxes, or trash containers; we will not pick it up. Keep brush in back of curb.
- ▶▶ Materials greater than 8" in diameter must be cut into manageable pieces and kept separate from brush. Logs and branches 4" or more in diameter must be trimmed of all small branches. Materials less than 1" in diameter must be tied together in 4 foot bundles, not exceeding 50 lbs.
- ▶▶ We will NOT collect brush that is cut or trimmed by contractors. Contractors hired by property owners are responsible for removing the material. Collections are for brush and tree trimmings from a typical residential clean-up, not entire tree removals.
- ▶▶ Do NOT mix yard waste in with your brush pile, neither one will be collected. Brush less than 1/4" in diameter is considered yard waste.
- ▶▶ Keep brush free of wire, tape, or inorganic materials. The use of string or twine is acceptable.

This brush pile has been set out appropriately. The pile is at the curb with cut ends facing the street. Larger brush piles are picked up at the end of the collection week.

DO

DON'T

Another example of a haphazard brush pile. It should be rearranged into small, neat piles.

This brush pile has been set out inappropriately. Branches should be placed at the curb in small, neat piles of similar sizes with cut ends facing the street.

DON'T

This is a good example of piles that are the same size and are tied together. Piles like these make it easy for the crew to pick up and it also reduces the mess.

DO

If branches do not fit on terrace, place them behind sidewalk with the cut ends facing the street.

Another example of a haphazard brush pile. It should be rearranged into small, neat piles.

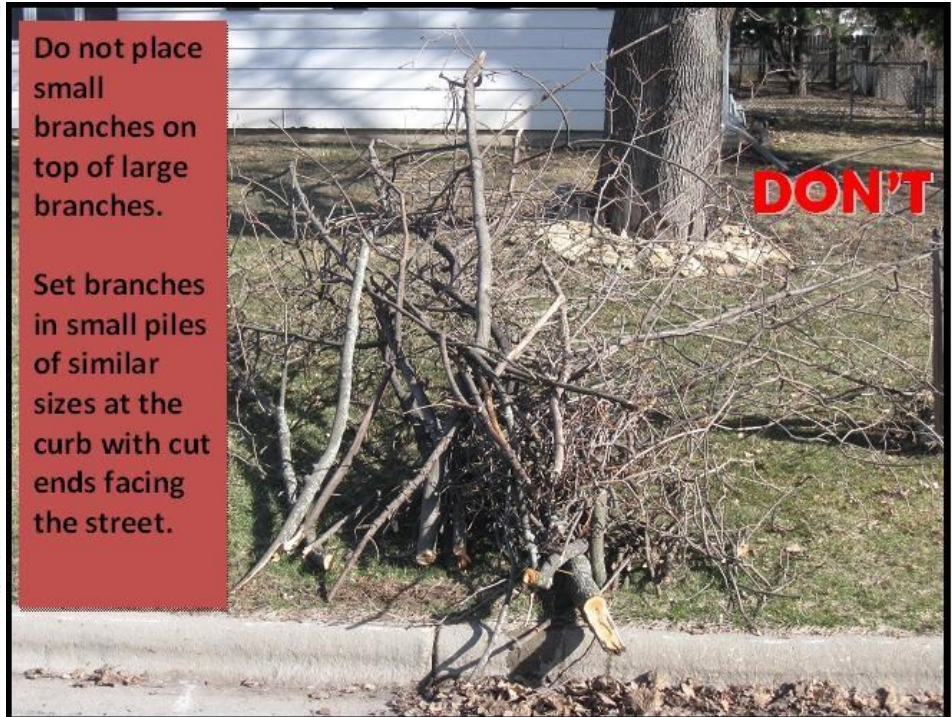

Do not put branches in containers or bags and do not mix it in with your yard waste.

Larger branches are brush and should be placed curbside in small, neat piles with cut ends facing the street.

Material smaller than 1/4" in diameter is considered to be yard waste. Yard waste is collected separately and will be picked up curbside during spring and fall collections. It can also be taken to the Recycle Center.

Branches can be placed on a tarp that can be handled by two crew members.

Do not place small branches on top of large branches.

Set branches in small piles of similar sizes at the curb with cut ends facing the street.

Do not place boards and processed wood with your brush; it will not be picked up.

Leave branches long. If one person can drag it to the curb, a crew member will be able to pull the branch into the chipper.

Household Hazardous Waste Disposal

Hazardous materials can be taken to Clean Sweep of Madison. The items they accept are: oil-based paints, paint-related products, pesticides and poisons, household products containing organic solvents, gasoline, gasoline-oil mixtures, 1-pound propane cylinders, full or partial aerosols, and rechargeable batteries.

Location:

7102 US Hwy 12

Madison, WI

Hours:

Tuesday-Friday from 7 a.m. to 2:45 p.m.

Saturday from 8 a.m. to 10:45 a.m.

Closed Sunday, Monday, and Holidays

Price:

\$10/trip for residents of Dane County (2014 rate)

1 TV or computer per load, \$10 for each additional

Questions:

Call 608-243-0368

www.danecountycleansweep.com

Medicine & Sharps Disposal

Sharps, such as medical needles, syringes, and lancets pose a problem for collection crews when they are improperly mixed with trash or recyclables. Sharps are a significant health concern for all workers who handle solid waste whether at the curb, the landfill, or the recycling facility.

All needle stick injuries require workers to undergo extensive testing, pose serious disease risks and can cause long-term emotional stress. State regulations require households to safely package sharps for proper disposal and prohibit putting sharps in the landfill.

Check with your pharmacy for options on sharps recycling.

Large Item / Bulk Collection

Large items including furniture (mattresses, box springs, dressers, carpet, etc.), lumber can be picked up curbside on “B” week Tuesdays. All that is needed is a quick call and payment to Advanced Disposal 251-7878.

*Remember bulk collection items cannot be placed out at curb prior to noon of the day
before scheduled pickup per city ordinance*

Other options to consider before throwing your unwanted items out for pick up:

- Can it be RE-USED by someone else?
- Can it be RECYCLED?

Appliances/Electronics

Appliances that do NOT contain Freon can be taken to the Recycle Center for disposal. Items that can be accepted include: washers, dryers, dishwashers, microwaves, ranges, water heaters, and smaller items that you do not want to put in your collection cart (blenders, toasters, etc.). Most electronics can be taken to the Recycle Center. This includes but is not limited to: computers (and all parts), printers, copy/print/fax combos, DVD players, cameras, satellite dishes, and telephones.

The following appliances are no longer accepted at the Recycle Center as they contain Freon: refrigerators, freezers, dehumidifiers, air conditioners, and water coolers. To dispose of these appliances you will need to contact an appliance store or appliance disposal company (Moor's Salvage, Handy Appliance).

Appliances and Electronics are collected the first and third Friday of the month curbside by Advanced Disposal. Call them to set up and pay for collection.

Any questions can be directed to Public Works at 837-3050.

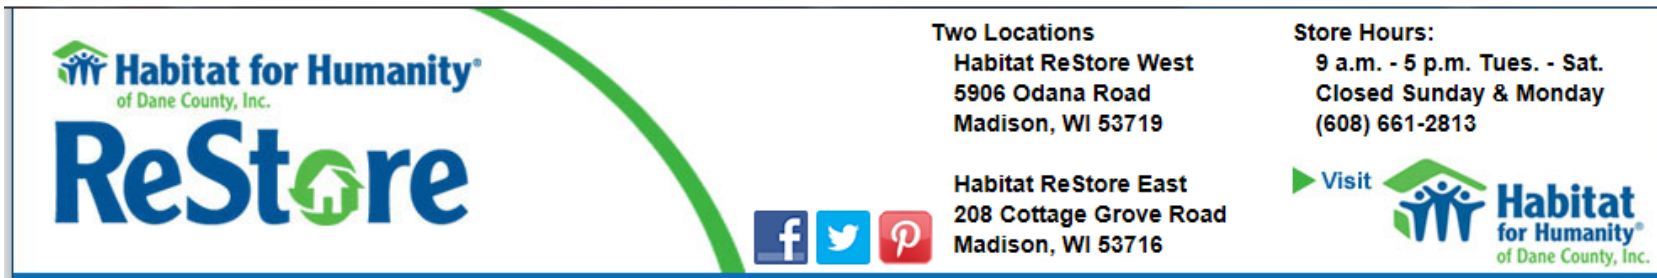

Building Materials Disposal

Some items can be salvaged and donated to Habitat for Humanity ReStore. See page 23 for a list of materials that can be accepted.

Small amounts of materials may be picked up curbside-call Advanced Disposal to verify and set up payment and pickup.

Larger amounts of materials will need to be taken to the Dane County Landfill for disposal.
