#	RESPONSES	DATE
1	N/a	2/28/2022 5:44 PM
2	Both were laid off	2/28/2022 3:39 PM
3	high cost of food and other materials	2/28/2022 6:37 AM
4	COVID has made it nearly impossible to find affordable housing and childcare options. I will have to temporarily quit my job this summer to stay home with two school age children because we can't afford summer childcare. My job can't guarantee my position will be open for me when my kids return to school in the fall.	2/27/2022 10:05 AM
5	Family was forced to homeschool for an entire year. Upon returning to public schools, each cough or runny nose required a full PCR test and about a week off school to wait for results. Family got COVID over Christmas break, even though fully vaccinated.	2/27/2022 9:38 AM
6	Negative social and educational impact on kids. Mental health impact on whole family	2/26/2022 3:03 PM

41	We were fortunate in that my husband and I could work from home. Our kids are also teens, which lessened the impact of virtual school during the lockdown, as they manage fairly well by themselves (with check ins from us). Obtaining mental health services during the pandemic was very lacking, especially for kids. And this wasn't necessarily a Sun Prairie issue, but a larger societal issue. During the lockdown, it was a 9 month wait to see a child psychiatrist (and we have good insurance). That's not acceptable.	2/25/2022 2:06 PM
42	We have greatly limited our visits to restaurants, stores and other venues where large groups of people are gathered. Though we are all vaccinated and boosted our granddaughter is not, we remain very cautious to ensure she is safe. Sadly, one of the real impacts to our family is a loss of trust in our leaders - so many have rejected the science and have promoted false claims.	2/25/2022 1:46 PM
43	Several members have had mild cases, none hospitalized, none died. All but one have all their shots.	2/25/2022 12:00 PM
44	Mental health	2/25/2022 9:49 AM
45	We have all had covid and lost family members. We are retired so job impact is not applicable to us but our adult children have been impacted by job loss and reduced hours.	2/25/2022 9:17 AM
46	Illness	2/25/2022 7:30 AM
47	Fear, worry, isolation; family members have refused vaccines but survived covid.	2/25/2022 7:29 AM

50	Longer work hours.	2/25/2022 12:11 AM
51	It's been a major inconvenience to our everyday life. Preventative measures lasted way longer than necessary, particularly once scientific data started proving that the oppressive measures did not significantly change the outcome. In some cases health protective measure have proven to be mostly ineffective.	2/24/2022 11:52 PM

57	We have increased food, energy, water, and gas costs in a home where everyone is now home working/schooling because of the pandemic. We have a house with one wage earner, one on ssdi and 2 college students. Direct to residents would be our vote as it would help us best this way...pay bills and keep food on the table.	2/24/2022 6:54 PM
58	Harder to obtain certain items for our household. Haven't seen certain friends/family members since pandemic started.	2/24/2022 6:39 PM
59	Hasn't	2/24/2022 6:21 PM
60	Having to pay twice for child care and school	2/24/2022 6:19 PM
61	We have not been directly impacted outside of remote work, masking, staying close to home, and social distancing	2/24/2022 5:59 PM
62	Even though vaccinated, boosted, and following all masking and social distancing mandates still came down with COVID.	2/24/2022 5:50 PM
63	We have been lucky, but the teacher shortage next year is going to complicate everything for everyone.	2/24/2022 5:46 PM
64	We are lucky. Not much impact at all.	2/24/2022 5:45 PM
65	Increase in utilities, increase in food prices, health affected by the virus, inability to get out to socialize, mobilization.	2/24/2022 5:07 PM
66	We have missed special events, school functions, and socialization for our kids. We've been lucky enough to work at home but recognize that hasn't been the case for many.	2/24/2022 4:18 PM
67	Missing get together with family and friends.	2/24/2022 4:05 PM
68	Daycare closures	2/24/2022 2:55 PM
69	It has prevented us from enjoying our community	2/24/2022 2:16 PM
70	Little to no impact aside from moving to remote work	2/24/2022 1:52 PM
71	Minimally- mostly in person school interruption	2/24/2022 1:44 PM
72	At least 2 people in my household were positively diagnosed by COVID-19; and at least one person was not able to work during the time of their recovery, which affected our household economically. I was personally displaced from work for approximately 7-9 months due to the pandemic.	2/24/2022 12:44 PM

79	Everything is expensive and hard to get	2/24/2022 11:46 AM
80	Isolation	2/24/2022 11:42 AM
81	Not much. Me and my husband work at an essential business.	2/24/2022 11:36 AM
82	Sibling nearly died, has had long COVID since April 2020. Disabled, cannot work right now due to high risk, so only 1 income with 3 kids. Homeschooling 2 kids who can't be in public school right now due to health issues. Have had to isolate whole the world tries to move on.	2/24/2022 11:31 AM
83	We've dramatically reduced our physical interactions with large group settings. We've been supporting our adult children who have seen reductions in their earning capabilities.	2/24/2022 11:31 AM
84	Kids have suffered socially	2/24/2022 11:23 AM
85	overall, not too severely. We have been lucky to have our business stay open through out and have had lots of help with our kids and steady income.	2/24/2022 11:13 AM

86	2 of us infected. Quarantine issues with school. Mental health struggles. Divorce.	2/24/2022 10:52 AM
87	COVID-19 has had no negative impact.	2/24/2022 10:48 AM
88	Enjoyed the delivery of groceries. Walking/ outside activities increased.	2/24/2022 10:48 AM
89	I was hospitalized with it early 2021 but no ill effects. Financially no impact what so ever.	2/24/2022 10:38 AM
90	Other than lockdowns and mask mandates it hasn't. We didn't let it control our lives.	2/24/2022 10:22 AM

94	Financially, job loss, isolation, instability	2/24/2022 9:44 AM
95	It has actually given me job stability helping the homeless with the Vulnerable Population Hotel program. My spouse has not been able to travel for work though. And we are eating out much less, and spending money in the community much less, as well.	2/24/2022 9:43 AM
96	Financially	2/24/2022 9:40 AM
97	Not much, except restriction in going out to different indoor places.	2/24/2022 9:31 AM
98	the isolation of the pandemic's first year was negative for my teenagers' physical and mental health, which they are still recovering from to this day	2/24/2022 9:30 AM
99	Lots of Break ins and speeding cars. Need more police doing traffic to slow down drivers	2/24/2022 9:26 AM
100	Financially, we're fine. But we have a small child, too young to vaccinate and it feels like families with young children have been forgotten. We have frequent child care closings still due to covid, both of us work in healthcare and it's exhausting.	2/24/2022 9:23 AM

103	Aunt passed away from Covid. Have been working remotely during it. My children's education and mental health has been negatively affected.	2/24/2022 9:19 AM
104	Three members of our extended family died from COVID-19 complications and co-morbidities. Two out of our immediate family of 6 contracted COVID-19. Fortunately, they were not severe cases.	2/24/2022 9:12 AM
105	It hasn't - but everyone around us, it has. And it has been sad to see and hear that people are not able to get affordable housing with rent prices going through the roof. some people are good people and denied a basic need for their family, which is housing.	2/24/2022 9:09 AM
106	Mental health	2/24/2022 8:57 AM
107	Isolation	2/24/2022 8:56 AM
108	At the beginning in March 2019 this caused family discord due to two of our college dorm living children suddenly returned home and one, a 19 year old violating quarantine; we asked them to find somewhere else to live out of concern for the virus being brought into our home. This concern was highlighted because I work (parent) in a nursing home and did not want to be the one who brought the virus to the nursing home. 5 of 6 adults in our house were able to continue working with little disruption (nursing home stayed open, two able to work from home, one worked at a senior living complex in food service, one worked at a grocery store). The other adult was working in a grocery store also, however when we asked them to find somewhere else to live, they moved away from the job and the new place they found to live at was more strict about quarantine and asked that they not work. This has impacted our relationships with our extended family (some less likely to follow distancing and masking and others extreme distancing and masking).	2/24/2022 8:47 AM
109	We do less activities outside our home	2/24/2022 8:44 AM
110	We have been very fortunate and have only experienced mental health issues.	2/24/2022 8:42 AM
111	My wife is a nurse & immunocompromised. We've had a few close calls but have been lucky.	2/24/2022 8:42 AM

American Rescue Plan Act (ARPA) Survey

I'm lucky I can work from home. She can't. We have 3 kids. We're all tired, stressed, and concern as variant after variant comes & we don't seem to learn from our mistakes. We've spent money on masks for us and our kids' school, in tests, and improved filtration.

112	We have been lucky in that we have been able to work. We have both had Covid (2 times for me).	2/24/2022 8:37 AM
113	It hasn't really	2/24/2022 8:34 AM

118	It has sucked	2/24/2022 8:23 AM
119	Working from home	2/24/2022 8:22 AM
120	Crime is rising. Need more cops.	2/23/2022 7:27 PM
121	My husband got laid off during COVID-19	2/23/2022 7:23 PM
122	I work with the immigrant community in Sun Prairie. Covid impacts on family have been: loss of wages because having to stay home because of covid or child with covid. Childcare closing because of covid, or a child with covid. The single parents then have to again miss work. Which equals loss of wages again, not enough money for rent/utilities & gas & food. Nearly every month I've seen this issue & the little money to go around to help out, isn't enough. If the families I serve do not work, there is no PAY. That's a luxury, a benefit the families I work with do not have.	2/23/2022 9:15 AM
123	Mental health, lack of connection to community	2/23/2022 7:04 AM
124	Financially	2/22/2022 10:10 PM
125	Covid 19 has impacted my family mentally and financially. The city of Sun Prairie needs to do better as it relates to helping its citizens	2/22/2022 9:59 PM
126	*	2/22/2022 1:08 PM
127	Working from home with kids has been tough, especially with kids both in and out of school. Sometimes I *have* to go to my workplace -- I have no choice -- and there were times last year I left my six year old home because I had no better choices. My family was lucky in that my husband and I both were able to keep our jobs but we both had to balance a lot in order to keep them. Trying to virtual school young children at the same time was nearly impossible.	2/21/2022 8:01 PM
128	Has caused us to take the necessary precautions to avoid being infected. Continuing to take precautions.	2/21/2022 11:18 AM
129	Financially, mentally	2/21/2022 9:05 AM
130	Anxiety levels are greatly increased and we no longer get to participate in many of the activities that brought joy pre-pandemic.	2/20/2022 1:34 AM
131	Wearing a mask while vaccinated and boosted causes stress and anxiety.	2/19/2022 7:54 AM
132	na	2/18/2022 11:53 PM
133	Working from home, 18 month old who hasn't been many places other than daycare to keep him safe, no economic concerns	2/18/2022 8:09 PM
134	School virtual learning has slowed learning and emotional development of my kids; virtual work has been hard (at times) to maintain work-life balance; illness has created direct hardship for friends and extended family members	2/18/2022 5:26 PM
135	Greater degree of isolation from normal activities.	2/18/2022 4:25 PM
136	Only one family member contracted it so far. Psychological impact has had a greater impact due to an elderly family member in the household and a nurse in the household	2/18/2022 4:17 PM

137	the same as most people, having to wear masks, work from home and been vaccinated and boosted. Neither of us has gotten covid	2/18/2022 1:59 PM
138	Too complicated to answer.	2/18/2022 10:34 AM
139	It limited activities and caused isolation. We need less shopping malls and more large spaces for quiet outside hiking, not just tiny city parks or trails along roadways.	2/18/2022 10:22 AM
140	Not at all	2/18/2022 10:21 AM
141	Loss of liberty due to government overreach. Loss of quality education due to poor virtual learning environment. Loss of income due to furloughs.	2/18/2022 9:51 AM
142	Feel secluded and cut off from normal activities and social interactions.	2/18/2022 8:08 AM
143	It has added significant stress to our daily lives. I have been lucky in that I have been working from home for years	2/18/2022 8:02 AM
144	We have been being very cautious and luckily have not yet tested positive for COVID-19. We have been doing our best to incorporate healthy lifestyle choices to decrease our risk of severe COVID & other chronic diseases. The social isolation has been frustrating & seems to have impacted the elders in the family the most, with continued cognitive decline. We are continually trying to find the right balance between safety and connection.	2/18/2022 6:37 AM
145	Fixed income and living in this city. Paying property taxes are a ridiculous amount. Despite increased population and crime taxes keep going up.	2/18/2022 6:30 AM
146	So many neighborhood break ins. People buying guns for protection since city doesnt handle it.	2/18/2022 1:48 AM
147	Zero impact except we have not taken any vacations since Feb 2020 so we have more funds in our savings account.	2/17/2022 8:44 PM
148	Increases stress since we are Healthcare providers. Higher costs of living right now make getting housing and food alot harder	2/17/2022 7:51 PM
149	Job loss	2/17/2022 7:03 PM
150	Minimal impact, but we are very fortunate.	2/17/2022 2:58 PM
151	we have had family members who had Covid but all were mild with no serious issues	2/17/2022 1:44 PM
152	Cost of supplies and foods are expensive...cannot afford any high cost when supporting a large family of 8.	2/17/2022 1:29 PM
153	It's been hardest on our kids but thankful they are older and can understand. So thankful we have an amazing school district that is doing their best.	2/17/2022 12:33 PM
154	Mostly lifestyle changes.	2/17/2022 12:24 PM
155	none	2/17/2022 12:20 PM
156	We quarantined. Did at home testing.	2/17/2022 12:08 PM
157	My daughter lost her job because the company she worked for lost business due to covid. SHe's working but not making as much. Child care is expensive and she's a single parent with 2 toddlers. She hasn't been able to pay rent and I don't know what she would do if we didn't help her with putting food on the table. We're seniors and its stretching our budget.	2/17/2022 11:38 AM
158	I am very thankful that my household has not been impacted, but I work with many who have been impacted. Many I work with have lost jobs due to job closures, lack of child care, health issues, etc. Many are struggling with the rise in cost of rent, food, transportation, etc.	2/17/2022 11:24 AM
159	Kids had to do school from home, we had to pay extra money for daycare so that we could work while our kids weren't able to do school in person. We all had Covid-19 in 2021. Depression/anxiety from not being able to participate in social activities.	2/17/2022 11:19 AM
160	minimal impact	2/17/2022 10:47 AM
161	Not majorly in the way it has impacted others. However, it does impact our mental health and as we work in education, we are experiencing immense burnout.	2/17/2022 10:21 AM

162	Mostly seeing how much it has divided people due to their stance/beliefs on how to handle public health and how deep peoples feelings run	2/17/2022 9:49 AM
163	Public health and mental health has been the biggest challenge. We all know people who are sick or have died from the virus. This has created mental health issues where people lose hope and a purpose for living.	2/17/2022 9:32 AM
164	Cival unrest	2/17/2022 9:31 AM
165	The constant shift of meeting the school district's needs along with employment needs. If a child is expose to another with a positive result, it doesn't allow us to plan our schedule accordingly. The bigger picture is - I have the means and resources to take care of my child when they have to stay home due to a positive case; however, this is not true for the many who might not have PTO or flexibility to adjust.	2/17/2022 9:24 AM
166	n/a	2/17/2022 8:39 AM
167	Unpredictable childcare	2/17/2022 8:03 AM
168	Thankfully, no	2/17/2022 7:51 AM
169	I choose not to respond.	2/17/2022 7:44 AM
170	Lock down	2/17/2022 7:38 AM
171	The vaccine killed two family members and one friend. Other than that it hasn't impacted us. The vaccine does not work and neither do masks. This has been completely mishandled and used as a tactic to control us and an excuse to frivolously spend our tax dollars.	2/17/2022 6:32 AM
172	Covid hasn't impacted us - it's the local government mandates and horrible corrupt overreach by FDA, CDC, NIH, and PHMDC that have affected us. We would've been able to live life normally is these entities hasn't shut things down and severely limited how we live.	2/17/2022 6:21 AM

174	The adults of our household now work from home.	2/16/2022 10:41 PM
175	Aside from supply chain disruptions impacting the availability of goods and services, there has been little impact thus far (fortunately). The only other adverse impact so far is that my employer did not provide merit increases in 2021 to all employees.	2/16/2022 10:02 PM
176	We have been unable to provide care to our grandparents and family. It has had a strong emotional and mental impact on us.	2/16/2022 9:38 PM
177	We are fortunate that our only impact is feeling isolated. We have been very cautious and respectful of others during the pandemic. That has led to us being more isolated. Fortunately we've not contracted the virus.... yet.	2/16/2022 9:32 PM
178	We limited shopping in person and couldn't support local businesses - used more online and big chain.	2/16/2022 8:58 PM
179	We have intentionally limited our exposure in public during the pandemic, but have not experienced any economic losses. We have lost several family members and friends and were unable to participate in traditional bereavement processes.	2/16/2022 8:55 PM

226	Covid 19 has been extremely stressful and rough. Over the last two years having to balance not working, then working from home, teaching kids at the same time, taking care of and protecting high risk family members- all while trying to keep mental and physical health.	2/11/2022 7:12 PM
227	Prices has gone up, examples food, cost of living, your ridiculous city taxes, gas prices.	2/11/2022 6:57 PM
228	We are very limited to what we can do with a toddler and trying to protect our family. Daycare is a nightmare. Finding care and being able to afford it is terribly difficult even for a 2 income home.	2/11/2022 6:17 PM
229	Mostly because are kids missed out on school activities and educational progress.	2/11/2022 5:53 PM
230	Due to having an immune compromised home, covid has caused us to be extremely cautious. Our kids were out of school off and on due to exposure, resulting in missing work and risk of exposure in our own home. Teachers have been out, childcare options are nonexistent and unpredictable. Staff turnover at my job has resulted in more demands on remaining staff. Staff have struggled with childcare for their very young ones. It's been a very challenging mess.	2/11/2022 5:18 PM

41	I'd like to see more efforts put toward affordable housing, which continues to be a struggle in Sun Prairie, whether you're a renter or home owner. We cannot afford to move in Sun Prairie right now. I'd also like to see more effort being made in the areas of mental health services, specifically appointments that are timely and fit the schedules of working families (for instance, evening and weekend appointments so parents don't have to take off of work or take kids out of school). I also think job training is crucial to support the businesses in Sun Prairie. Perhaps more opportunities for high school students to attend school part of the day and gain work experience for part of the day, especially in their junior and senior years? And lastly, I think the Park and Rec and library have been doing a wonderful job with programming for youth. I'd like to see that continue, especially for teens.	2/25/2022 2:06 PM
42	The pandemic has exposed a number of inequities in our social network. Funding should be directed to those who suffered most; front line workers, teachers, health care and child care workers - some of this assistance should be considered for infrastructure improvements and sustainability initiatives. Additionally, a real issue exposed by the pandemic is the taxing inequity, homeowners pay a majority of the property taxes. As funding options are being considered it is hoped that a real discussion is had to review and correct Sun Prairies unfair taxing practices.	2/25/2022 1:46 PM
43	Invest in our community members, youth and health services.	2/25/2022 12:00 PM
44	Address the mental health needs of youth.	2/25/2022 9:49 AM
45	Use the money wisely - help those most affected and then work your way down - keep police, fire, ems, medical professionals at the top and then education, housing etc next. Reduce money to city entities such as the library, museum, and other areas that are not immediately critical to sustaining the City's citizens.	2/25/2022 9:17 AM

93	This is a opportunity to bridge the gap in inequalities in the community. Resources should be provided to help those that need it with job placement or development of skills. Resources should be provided for food security. No one in our community should struggle for food. Take the time to find out why they are and address those issues.	2/24/2022 9:51 AM
94	See above	2/24/2022 9:44 AM
95	I know folks gripe about the constant rental units being built in the community, but I know that will mean housing for people who need it. I have also seen an increase in violence and other illegal activities. So some programs to help youth see there is another path would be great. But also, more education for those folks out there who think it's okay to leave their cars in the street/driveway and unlocked.	2/24/2022 9:43 AM

Sunshine Place and others have worked with affected individuals directly to help keep them from homelessness and assist with utilities, food, and other necessities. I'd like to see something that goes at the root of the problem but in the mean time, I'm happy to see my neighbors who have been hit harder continue to receive the support that they need to get by. Also, please remember folks with young children who cannot yet be vaccinated or those with higher risk of morbidity- we can't all go back to normal yet and those at higher risk will need continued assistance.	2/24/2022 9:23 AM

127	Let's work together to increase options for people in their neighborhoods -- work together to help each other and build networks. It's hard to ask for help, especially if you're not someone who usually does so. Can you use ARPA funds to do things like improve parks and add services to places like the library? COVID certainly showed to me the importance of keeping our parks in good shape -- some of our parks are gorgeous, while others could use some more attention to make them better play places for kids. All our public buildings seem like they need better air quality/flow in them -- it's my limited understanding that that is good for public health. I'm glad to see the library expansion is moving forward because that building is in need of updates -- it got very crowded in there before COVID and the hvac doesn't seem to work correctly all the time. I'm not sure of all the other buildings because I visit the library most often but I'm willing to bet other buildings could use infrastructure improvements as well. It's	2/21/2022 8:01 PM

Also, making sure all residents have access to healthy food, predominantly whole plant-foods. Perhaps through a voucher program for whole plant foods in area grocery stores or through a food "farmacy" program. Another option would be to provide a CHIP (Complete Health Improvement Program, there is more info online) to area residents with interest & need.	2/18/2022 6:37 AM

The median ROI for all 29 local public health interventions was 4.1 to 1, and median CBR was 10.3. Even larger benefits were reported in 28 studies analysing nationwide public health interventions; the median ROI was 27.2, and median CBR was 17.5. Conclusions: This systematic review suggests that local and national public health interventions are highly costsaving. Cuts to public health budgets in high income countries therefore represent a false economy, and are likely to generate billions of pounds of additional costs to health services and the wider economy."	2/17/2022 7:51 AM

224	Checks to residents. Struggling to pay rent in a low income housing situation. On food stamps too and that's barely covering what is needed.	2/11/2022 8:24 PM
225	To help people	2/11/2022 7:29 PM
226	Some sort of direct monetary assistance to residents would be AMAZING!! especially as a single parent. Actual affordable housing(duplexes, townhouses) for low income families- in my opinion apartments dont work for all family units.	2/11/2022 7:12 PM
227	Put back into the hands of hard working property tax payers. Also, put the money towards repairing roads, and high risk intersections, pedestrian walkways.	2/11/2022 6:57 PM
228	Affordable childcare, lowering taxes (ours has gone up almost \$1000 since we bought our home 4 years ago), investing in at risk youth.	2/11/2022 6:17 PM
229	For projects and programs that will be sustainable and not increase our already very high taxes in the future.	2/11/2022 5:53 PM
230	Easier access to testing for sure. Pay for and increase opportunities for safe connections. Offer free online wellness opportunities through parks and rec. Develop outdoor volunteer and job opportunities (to reduce risk). For example, replace or pain the nasty rusty bridge that stretches over 51 (near woodmans). Organize neighborhood clean ups. Youth mural opportunities. Encourage a sense of pride and responsibility in our community.	2/11/2022 5:18 PM
231	N/A	2/11/2022 4:20 PM
232	Help our youth with grief and trauma related to go the pandemic. Help businesses that suffered due to the mask mandates.	2/11/2022 2:30 PM
233	Free COVID PCR testing for all. Bring down the crime in the city of Sun Prairie and the increased violence in some of the schools. Sun Prairie was not like this when we chose to move here 19 yrs ago. The crime and safety to its residents seem to keep increasing the past several years.	2/11/2022 11:11 AM
234	I would like the city to give direct assistance to residents or create low-cost teen/ child programs for ALL residents regardless of race or income. This would create a bond between community members of all categories. Too often programs are only available to low income or minority individuals which further separates different groups.	2/11/2022 10:27 AM
235	I would love to see this money invested in people with less means and small business that were drastically effect by the pandemic	2/11/2022 10:14 AM
236	No social issues. Help for businesses, affordable elderly housing and transportation. Fix the roads, help the people who lost their businesses to stupid mandates. Throw a big party, people want to be happy again!	2/11/2022 9:45 AM
237	My priorities are listed above, but the main focus should be infrastructure.	2/11/2022 9:12 AM
238	The money should be spent on infrastructure improvements to neighborhood streets, sidewalks, parks and park facilities, library and other community services as well as in our schools.	2/11/2022 8:49 AM
239	Wrap around services where the school is not meeting needs. If more families are working full time jobs they don't have care for their children after the school day. We have to find extremely affordable ways to support that including busing to the programs.	2/11/2022 8:43 AM
240	Hire community health workers to act as trusted community members to get their neighbors connected to services and resources. This would not only create jobs but would also address disparities in sun prairie.	2/11/2022 8:35 AM
241	Make SP more accessible to people who want to move here, and help people stay (it really is getting so expensive to live here, every year our property tax increase is substantial)	2/11/2022 8:33 AM
242	Making better masks more available	2/11/2022 8:30 AM
243	Used to support businesses	2/11/2022 8:22 AM

American Rescue Plan Act (ARPA) Survey

244	Utilize it for the stability of your residents ONLY. Mental, emotional, financial etc...	2/10/2022 2:26 PM
245	First, pay for all the extra covid things that needed to be done. Then, help support businesses that got slammed by restrictions thru no fault of their own. And help residents who lost income due to covid, whether that be job loss or illness.	2/10/2022 10:37 AM
246	See question 2.	2/10/2022 7:06 AM
247	See #2 without affordable childcare we can't make the other items happen	2/10/2022 6:12 AM
248	In the library, supporting more programs, events and ways to connect. Parks have been wonderful during the pandemic, so replacing heavily used/older items would be nice. Please don't spend on expensive new items for parks.	2/9/2022 8:56 PM
249	Mental health support services	2/9/2022 7:31 PM
250	Creating more mental health providers	2/9/2022 4:05 PM
251	attracting childcare workers into Sun Prairie (training or incentives with current providers)	2/9/2022 3:36 PM
252	Wisely. Not for new items that will require additional funding in subsequent years.	2/9/2022 3:28 PM
253	Assistance to small businesses and nonprofits; the PPP and gov't grants were helpful but the pandemic still left us at a shortfall and with Delta and Omicron in late 21 and early 22, really impacted sales/customers. I also marked "job training"... what we really need are employees who want to work. It's been a significant struggle. I know this requires a move further upstream to identify why this worker shortage is happening (what other social determinants are making it occur which is why I marked affordable housing, food security, child care). Anyhow, it is a major stressor for business owners making decisions on how to staff, hours of operation, inventory levels and ultimately needing to "do it all" and work a significant number of hours to keep the lights on. (which is why I marked "mental health")	2/9/2022 2:21 PM
254	Set aside money for senior care, address poverty issues, and job training.	2/9/2022 11:48 AM
255	I would like to see those who lost jobs, had income reduced, lost childcare and therefore the ability to work, and those whose housing and food insecurity increased supported. I would also like to see a portion of the ARPA funds devoted to the development or improvement of community resources, like our parks and recreation facilities. Individual wellness became a crucial concern during the pandemic with our separation from community. Our parks and recreation facilities are one of the City's principal resources in addressing individual wellness for everyone. One example project would be a bathroom facility in Vandenburg Park. It is the home for the only full-ADA accessible playground in the City, a community garden, a planned picnic shelter, basketball courts and open space. The neighborhood draws from a diverse mix of housing and a nearby elementary school. The ARPA funds might be a way to address this need faster than through the normal Capital Improvement Project route. This and other small but potentially impactful projects in our parks and recreation facilities should be considered.	2/9/2022 9:47 AM
256	Improve infrastructure, public transportation. Create better access to outdoor and indoor activities.	2/9/2022 8:06 AM
257	Use cost benefit analysis when choosing activities and projects in areas of priorities.	2/8/2022 4:58 PM
258	Infrastructure of current city properties and roads. More police officers, more fire fighters.	2/8/2022 3:58 PM
259	For 2022 I would suggest concentrating on immediate, recovery type activities.	2/8/2022 2:59 PM
260	Not sure	2/8/2022 12:20 PM
261	support some of the local non profits to help with housing issues and food security	2/8/2022 11:48 AM
262	Help those struggling with housing, food, and other needs because of the impacts of the pandemic	2/7/2022 2:03 PM
263	To help families and individuals disproportionately affected by the pandemic	2/7/2022 1:57 PM
264	Help lower income residents with housing and mental health.	2/7/2022 10:59 AM
265	housing, child care, nonprofits	2/7/2022 10:03 AM
266	Allocate the funds to organizations that provide services to community members disproportionately affected by the economic effects of the pandemic.	2/7/2022 9:24 AM

American Rescue Plan Act (ARPA) Survey

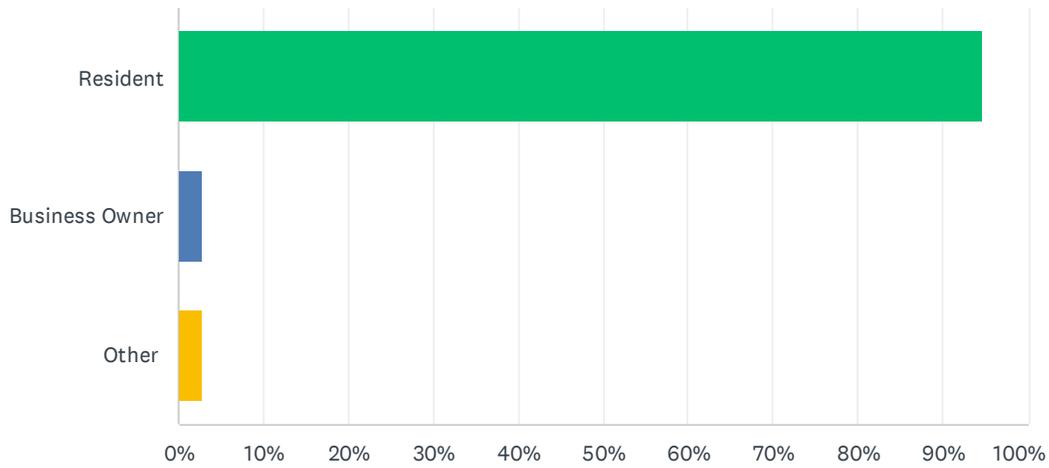

267	Provide mental health awareness and education, reduce stigma, and improve Mental health outcomes - particularly among our youth and at-risk populations. Provide direct assistance to residents with minimal to no qualification criteria - we have a whole group of middle-income families that are struggling and don't qualify for other assistance.	2/6/2022 6:47 PM
268	Hire full time firefighters	2/6/2022 3:18 PM
269	1. Work to eliminate Covid. 2. Infrastructure 3. Food Security 4. Small businesses & non-profits 5. Mental Health	2/5/2022 11:40 PM
270	don't know	2/5/2022 11:46 AM
271	See priorities above	2/4/2022 8:42 PM
272	Short term mitigation if necessary. Benefits for those who cannot cope with covid financially/emotionally (i.e. a severely immunosuppressed single mom can't safely go work an in-person job and then send her kids to daycare...but needs to pay the bills...). Otherwise, aim for items that will create the best long-term benefits - i.e., ventilation in public buildings could reduce future capital costs (mold) and illnesses at community gatherings. (Just one example...there are probably better options out there!)	2/4/2022 8:04 PM
273	I would like to see the City help create more funding for non-profits such as Sunshine Place - to create more safety nets for those disproportionately affected by the pandemic. Business funding has been in abundance - but those without a support line need the biggest help with housing, utility, rent assistance, food stability, and support for their children.	2/4/2022 3:55 PM
274	If the city is concerned about equity, I would like to see the city use some of the ARPA money to provide full-time closed captioning for the hearing impaired on the city's cable channels. This includes sign language at live events recorded by the Media Center. This will make programming more accessible for the hearing impaired. I would also like to see the city make a one-time donation to the Colonial Club to compensate for lost funding through United Way of Dane County in recent years. Finally, the city needs to expand its bulletin board system to other city buildings (besides city hall) to include places where the public can view it at the library, the Westside Community Building, the Park n Ride lot, Cannery Square, and selected bus terminal stations.	2/4/2022 2:38 PM
275	direct assistance to residents	2/4/2022 10:55 AM
276	Housing assistance Food support Health care Tedting	2/3/2022 7:10 PM
277	Invest in people and communities within Sun Prairie hardest hit by pandemic. Invest in strategies that address potential longer term issues (mental health, childcare, education, etc) so people can return to work and life and overcome challenges of past few years. Tie into equity and diversity work. Use to make our city even better than before not just bandaids on big issues. Earlier in pandemic I'd recommend public health and virus response but at this point seems better to focus on other needs mostly. If testing isn't available federal or state levels, investing in at home and rapid testing sites, vaccines, contact tracing makes sense	2/3/2022 6:46 PM
278	to help those people who have been most greatly impacted. I have not lost family, home or job but some have. we need to take care of our own	2/3/2022 2:40 PM
279	I think the city should concentrate on housing assistance and helping local, small businesses.	2/3/2022 2:13 PM
280	Child care, mental health, support for students through infrastructure	2/3/2022 2:11 PM
281	Public safety and increased inspections to enhance law and ordinance enforcement. "Broken windows" theory; continually address the small stuff and the big stuff goes away.	2/3/2022 1:26 PM
282	Local non-profits that will provide help with those disproportionately affected by the economic and mental health aspects of the pandemic.	2/3/2022 1:10 PM
283	Support investment in hard infrastructure projects. Bricks and mortar...streets, bike paths, broadband	2/3/2022 12:54 PM
284	To help support food security, housing security and mental health.	2/3/2022 12:44 PM
285	Relief to keep places open	2/3/2022 10:32 AM
286	Transportation and housing needs	2/3/2022 10:30 AM

291	Help those families most affected by Covid-19.	2/3/2022 9:13 AM
292	I would like to inject the money into the City to help it's citizens, increase vaccination rates and education, help our small businesses stay open.	2/3/2022 8:58 AM
293	Infrastructure	2/3/2022 8:46 AM
294	Transparently.	2/3/2022 8:35 AM
295	I'd like to see it used for programs, not to keep open businesses that don't pay well in the first place. No one who pays staff poorly should get relief funds to keep their vanity project open so they can be a "business owner."	2/3/2022 8:33 AM
296	Invest the funds into the community such as improving parks and other city infrastructure	2/2/2022 4:54 PM
